Turkey, Istanbul

Summary

Ambitious and detail-oriented 4th-year software engineering student at Üsküdar University with a strong foundation in frontend development and software engineering principles. Proficient in HTML, CSS, JavaScript, and React.js, with experience in database management, OOP, and machine learning. Experienced in team collaboration through a one-month internship as a frontend developer and multiple academic projects. Fluent in four languages and eager to contribute to dynamic web development projects.

Education

Software Engineering

Uskudar University • Turkey, Istanbul

05/2025

GPA: 3.47

Skills

HTML5, CSS3, JavaScript, React.js, Bootstrap, Git, Java, Agile Methodology, SQL, Object Oriented Programming

Projects

- **Soulayma Boutique**
Developed a React-based eCommerce website with a focus on intuitive navigation and responsive design, featuring a dynamic product listing page and a shopping cart.
- **CRUDS System Management Website:** Built a comprehensive management system with full CRUD operations, focusing on data organization and UI efficiency.
- **Clipcast (YouTube API Integration)**
Built a React application using the YouTube API to allow users to search and view videos, utilizing React hooks and conditional rendering for a smooth user experience.
- **ClubConnect**
Developed a club and event management website, integrating various interactive components to improve user engagement and optimize functionality.

Experience
